Who We Are

FlatPackCo

Transforms F&B build-outs with high quality and durable, factory finished installations.

We deliver scalable, superior quality fit-outs that cut construction time and ensure brand consistency, supporting your growth with precision and speed.

Discover how FlatPackCo helps you open doors faster, with superior quality and a streamlined build process.

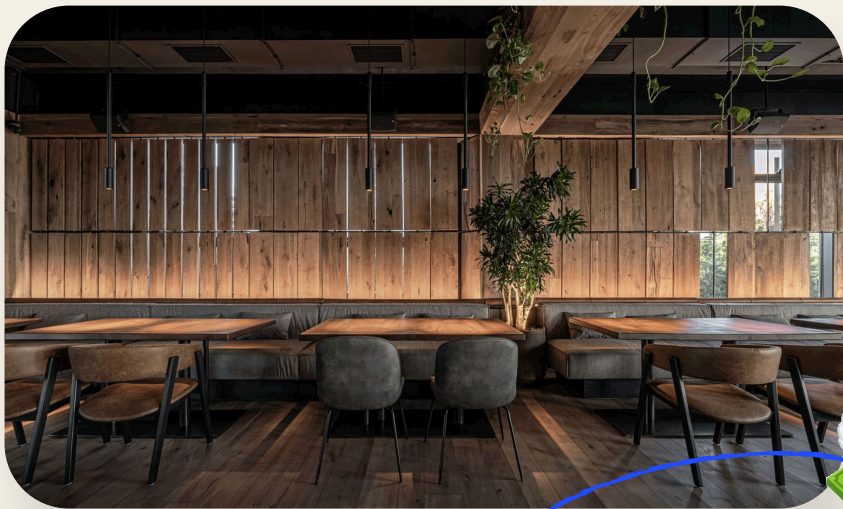

To redefine how F&B spaces are built, helping owners save both **time and cost**, and paving the way for future builds that can be completed in as little as five days through our contract manufacturing model.

Our Edge

Introducing

The more outlets you
open with FlatPackCo,
the greater the savings
in time and cost.

Faster, Smarter & Efficient Fit-outs.

FlatPackCo cuts project timelines to up to **50%** with factory finished components, delivering superior quality and long-term cost savings with each new outlet.

Why FlatPackCo?

1. Accelerated Timelines

Save up to **50%** on build time with our off-site fabrication and modular assembly.

2. Superior Quality

Factory-finished components ensure uniformity across every location.

3. Predictable Costs

Transparent, fixed costs with no budget surprises

4. Scalable Rollouts

Easily replicate designs across multiple locations fast tracking your growth strategy.

5. Minimal On-Site Disruption

Our off-site assembly minimizes noise, mess, and disruption to ongoing operations.

FLATPACKCO PROCESS: STREAMLINED FROM START TO FINISH

01 From Design to FlatPackCo

- We engineer restaurant concepts into SKU's that are manufactured at Factory premises keep brand specific design and elements intact
- All brand elements are broken down to components with size tolerance and high durability

02 Precision Prefabrication

- Key components are centrally sourced and pre-built using high-quality materials through our F&B specialised manufacturing units for efficiency and cost control.
- Each product undergoes customization, rigorous quality checks, and brand alignment before being shipped for deployment.

03 Rapid Installation & Handover

- Pre-fabricated components arrive ready for fast assembly, cutting build time by up to 50% compared to traditional methods.
- Installation is handled by experts with minimal on-site labor, ensuring every outlet meets brand and quality standards.

We follow a contract manufacturing model through our production to specialized vendors while handling engineering , F&B specialisation, customization, quality control, and delivery for cost-efficient, consistent, and scalable rollouts.
